Banana Blast Instruction Manual

Welcome to Banana Blast, the exciting and hilarious game where players race to collect bananas without getting caught by the mischievous monkey!

Objective: The objective of Banana Blast is to be the player with the most bananas at the end of the game.

Contents:

• 1 Banana Tree

• 12 Bananas

• 1 Monkey

• 1 Base

• 1 Spinner

• 1 Instruction Manual

Setup:

1. Assemble the Banana Tree by placing the base flat and attaching the tree trunk.

2. Insert the monkey into the top of the tree trunk.

3. Place all 12 bananas into the tree branches.

4. Place the Banana Tree in the center of the playing area.

5. Each player chooses a color and takes the corresponding monkey handle.

Gameplay:

1. The youngest player goes first, and the play proceeds clockwise.

2. On your turn, spin the spinner to determine your action:

• If the spinner lands on a color, pull out one banana of that color from the tree and add it to your collection.

• If the spinner lands on the monkey, carefully pull one banana from the tree. If the monkey pops out, you must return all your bananas to the tree, and your turn ends.

3. After taking your action, pass the spinner to the next player.

4. The game continues until all bananas have been collected from the tree.

5. Count the bananas in each player's collection. The player with the most bananas wins the game!

Additional Rules:

• If two or more players tie for the most bananas, the tied players share the victory.

• If the monkey pops out during your turn, you cannot collect any bananas until the next round.

• Avoid making the monkey pop out when pulling bananas from the tree!

You can get a manual from the box when you buy; I wrote it to help users download it as a PDF.
